
TCU 480V PHASE MONITOR KIT

The TCU 480V Phase Monitor Kit includes all the components necessary to use the TCU's optional 480 VAC three-phase power monitor.

The kit includes:

- 480 VAC, three-phase surge arrester
- Three (3) DIN-rail mounted terminal blocks with end plate
- Fuse block with three (3) 1 Amp fuses
- Two (2) 100K resistor assemblies

SPECIFICATIONS

DFS Part Number	DFS-00393-008-01
Class	Secondary Surge Arrester
Agency Approvals	UL838 and cUL listed (UL-OWHX)
Connection Method	Hardwired parallel
Service Configuration	Three Φ Delta (3W+G)
Service Voltage	480 VAC
MCOV	680V
Peak Surge Current	75,000 Amps
Protection Modes	L-G, L-L
Indicators (3)	LED status indicator for each phase
Housing	High impact plastic
Size	4.35"H x 3.55"W x 1.6"D
Weight	0.75 lbs
Additional Components	Three (3) DIN-rail mounted terminal blocks with end plate; Fuse block with three (3) 1 Amp fuses; Two (2) 100K resistor assemblies
